Lex Application — Testable Features Checklist

Document & Folder Management

	Feature	Test Focus
1	Create new folder	Creation works correctly
2	Create new document	Creation works correctly
3	Sort documents	Old→New, New→Old, Alphabetical order
4	Search documents	Search returns correct results
5	Pin to top	Pinned doc stays at top of list
6	Duplicate document	Creates accurate copy
7	Rename document	Name updates correctly
8	Delete document/folder	Deletion works, no residual data

Editing Features

	Feature	Test Focus
9	Regional language support (via Lex AI)	Check accuracy/rendering
10	Header "History" section	Verify version history logs correctly
11	Insert image feature	Upload works properly
12	Insert image via URL	Test with: https://lex-img-p.s3.us-west-2.amazonaws.com/...
13	Keyboard shortcuts (general)	All shortcuts functional
14	Alt+Ctrl+L (chat mode shortcut)	Confirmed working
15	Undo / Redo	Both functioning correctly
16	Table of contents	Auto-generates and navigates correctly
17	Voice dictation (in Focus Mode)	Syncs and transcribes properly

Navigation & UI

	Feature	Test Focus
18	Lex logo click	Navigates to home + animation on logo color
19	Document URL sharing	Test: does opening the link in another browser bypass authentication? (potential security issue)

Collaboration

	Feature	Test Focus
20	Multi-browser sync	Edits reflect in real-time across browsers
21	Collaborative presence indicator	Does it show "who is typing"?

Focus Mode

	Feature	Test Focus
22	Focus mode session	Starts/functions correctly
23	Session timer	Countdown works accurately
24	End-of-session popup	Triggers correctly when timer completes

AI Features

Feature	Test Focus
---------	------------

- | | | |
|----|---------------------|---|
| 25 | AI settings option | Accessible and functional |
| 26 | AI usage details | Displays usage stats correctly |
| 27 | Temperature setting | Adjustable and affects output as expected |

Account & Billing

- | | | |
|----|------------------------------------|---|
| | Feature | Test Focus |
| 28 | Upgrade option navigation | Correct redirect |
| 29 | Currency display | Shows INR by default (or does it default to USD for you?) — flag if incorrect |
| 30 | FAQ hyperlink (in upgrade section) | Confirm it navigates to the correct page |

Performance / Limits

- | | | |
|----|-------------------------------|--|
| | Feature | Test Focus |
| 31 | Word/character limit handling | At 66,855 words / 417,543 chars — app not functioning properly beyond this point (its a bug) |
